

Doctor-formulated, Allerfin™ is a unique proprietary blend of some of the world's most researched natural ingredients for helping manage seasonal discomforts.\* Allerfin was designed to:

#### 1. Support Sinus Health\*

Human clinical research has found that Allerinol™, a proprietary extract of the Japanese herb perilla frutescens enriched with rosmarinic acid, reduces inflammation of the nasal passageways.\* Clinical evidence also shows that bromelain, an enzyme derived from pineapple, has the same effect.\*

#### 2. Block Histamine Release\*

In vitro studies have found that quercetin, a bioflavonoid found in red wine, apples and grapefruit, may prevent immune cells from releasing histamine.\* Researchers also believe stinging nettles may reduce the amount of histamine produced.\*

#### 3. Support Lung Health\*

Double-blind, placebo-controlled trials have shown that bromelain supports free and easy breathing.\*

#### 4. Relieve Eye Irritation\*

A randomized, double-blind, placebo-controlled trial found that Allerinol™ provides relief from watery, itchy eyes in human subjects.\*
